OUR mission is to instill in children the desire to give back while inspiring the next generation of giving. The Packaged Good provides a fun, inspirational environment where kids and community groups can decorate and personalize care packages and create craft projects for people in need. Whether it's giving to our armed forces, the elderly, the homeless or hospitalized kids, The Packaged Good partners with vetted, reputable non-profit organizations to allow volunteers the ability to support causes closest to their hearts while handling all of the logistics.
